Postgraduate studies

OTHER TRAINING COURSE

2020 - 2021 (6 months)

Lean Six Sigma Green Belt Certification Program

Aveta business Institut

Description: Certified Lean Six Sigma Green Belt is an individual that possesses a thorough understanding of enhanced problem-solving skills, with an emphasis on the DMAIC (Define, Measure, Analyze, Improve and Control) model. The Green Belt Certification designation also reflects the knowledge by the individual to serve as a trained team member within his or her function-specific area of the organization. This focus allows the Green Belt to work on small, carefully defined Six Sigma projects, requiring less than a Black Belt's full-time commitment to Six Sigma throughout the organization.

Pre-university studies

Secondary school diploma: Scientific High School

School-leaving examination taken in (year): 1984

Italian secondary school diploma
